

SAT 14 / SUN 15 May 2022

Outlaw Half Nottingham Travel & Spectator Information

A52 Roadworks - Getting to the National Water Sports Centre Nottingham

Roadworks at Gamston Island on the A52 (Nottingham ring road) may cause delays on Saturday 14 May, please allow extra time. If you are slightly late for allocated transition check in times, don't worry! But note that transition will close at 4pm.

On race morning, the island is CLOSED until 6am. Please look at the diversions in advance. If you are coming from the West or South, use the A60 through West Bridgford. If you're coming from the East, please research the alternatives.

Spectators

Spectators planning to arrive for the swim start at 6am will need to find alternative routes that avoid the A52 Gamston Island (Nottingham ring road). Spectators are asked not to drive out on to the bike course during the race - please keep the roads clear for the athletes.

Following the swim, it is possible for spectators to leave once all bikes have left the venue. On returning, you will be directed on where to park - this may be a different location to where you parked in the morning, but all car parks are within the grounds of National Water Sports Centre.

Spectators are encouraged to enjoy the National Water Sports Centre and Country Park. Once athletes have returned from the bike leg, they will remain within the grounds for the whole of their 13.1mile run and will appreciate your support!
